 8190 Lincoln Rd  
 Beulah MI 49617**

## Who Should Attend:

Nurses, CNA's, Home Health Aides, Direct Care Providers, Social Workers, Speech Therapists, and Activity Directors

## The Program:

### *Creating Moments of Joy*

Alzheimer's disease is the most common form of dementia among older people. It involves the parts of the brain that control through, memory, and language. This day will present ways to rejuvenate and inspire your creativity so you can bring joy, hope, and memory enhancement into the lives of people living with Alzheimer's.

"Jolene's energy is uplifting! She inspires me to honor my patients in their truth, and it is a privilege to bring them moments of joy."

*Cindy Hahn, CNA*

## The Speaker

**Jolene Brackey** is the founder of Enhanced Moments and author of the book, *Creating Moments of Joy*. She has a B.A. from Iowa State University and extensive experience with people who have Alzheimer's. Jolene has been a keynote speaker at many conferences where family members, CNAs, and professionals share what works and doesn't work. Her message of hope and encouragement, along with generous helpings of humor, has been warmly embraced by family members and professional caregivers alike. The greatest education is being with and having loved someone with Alzheimer's.

## The Objectives

After the program, attendees will be able to do the following:

- ❖ Discuss a new perspective of Alzheimer's disease by focusing on the positive aspects of the disease.
- ❖ Identify the treasures in each individual and how to incorporate these treasures into a memory enhanced program.
- ❖ Describe how to create moments that will ease daily struggles and other comfort.
